

Dangerous goods cannot be shipped by Perimeter Aviation without proper packaging and paperwork.

The following is a list of common dangerous goods that may require special packaging and paperwork before being transported in a Perimeter aircraft:

- Aerosols (spray bottles)
- Batteries
- Laptop Computers (contains batteries)
- Flashlights
- Power Tools (battery operated hand tools)
- Dry Ice
- Bleach (Javex)
- Cleaning Supplies (various types)
- Adhesives (Glues)
- Sealants (Caulking)
- Gas powered items
- Fireworks (Sparklers)
- Biological Substances
- Ammunition (Bullets)
- Oil Based Paint (Latex is ok)
- Flammable Liquids

If you're unsure about something in your shipment please ask!

Note: Any undeclared Dangerous Good that is found during a search / scan of a package must be held for future inspection by Transport Canada. These items may or may not be returned to you at their discretion.
